

AT-A-GLANCE

Solutions for Texas Private PK-12 Schools

Key Benefits

The **National Transcript Center**, the Austin-based vendor that developed the Texas Records Exchange (TReX) System for TEA, is a secure national service that improves the efficiency, reliability, cost and security of sending and receiving student transcripts. TReX/NTC member institutions log in to a user-friendly, browser-based application to *send, receive, manage and track* their electronic records and transcripts.

Join the TReX network:

- ▶ **TReX membership** is available to private PK-12 schools in Texas that can provide student data in the TReX XML format. Participating private schools enjoy the same benefits as public districts:
 - Exchange electronic student records (and attachments) with public in-state districts and other private schools that have joined TReX.
 - Send electronic transcripts to in-state public institutions of higher education and all colleges on the SPEEDE Server.
 - Request records electronically from other TReX members.
 - Receive electronic records from other NTC members nationwide.

Pricing: \$375 setup fee for a limited time.

- ▶ **NTC National Option™** is an optional add-on service to TReX that enables members to use TReX to send records and transcripts to any of the 137,000+ public, private, PK-12 and higher education institutions in the country. Other NTC members receive records/transcripts electronically; nonmembers receive them by mail on secure transcript paper.

Pricing: No additional setup fee beyond \$375 TReX membership. \$5 per record/transcript sent outside the TReX scope. No fee to request or receive records.

Join NTC directly:

- ▶ **Full NTC membership** is similar to TReX membership and NTC National Option™, with several advantages:
 - Greater flexibility with data formats: Student data may be provided in one of two national standards, PESC XML or SPEEDE EDI. (Coming in Fall 2008: the ability to upload records/transcripts as PDFs, avoiding the need for a data extract.)
 - Deliver a transcript securely to any email address: The recipient downloads an Avowed™-certified Adobe®/GeoTrust®-certified PDF from a secure server.
 - Request a record/transcript from over 100,000 schools nationwide.

Pricing: Setup fee of \$100 per elementary school campus and \$500 per middle or high school campus. \$5.00 per record/transcript sent, including within Texas. No charge to receive or request records/transcripts.
